CONFERENCES & EVENTS

The Alexander Graham Bell Centre

It may be one of Scotland's smallest regions, but when it comes to Life Sciences, Education and Tourism, Moray punches well above its weight.

The Alexander Graham Bell Centre for Digital Health (AGB Centre), situated in Elgin, Moray's historic administrative centre, is a research, education and business hub providing an ideal venue for your next conference, exhibition or corporate event.

First Class Facilities

The AGB Centre provides a contemporary, prestigious setting for training, seminars, ground-breaking conferences and international events. With up to date technology and top quality conference facilities, our helpful team will ensure your event will be a success.

The centre is situated on the campus of **UHI Moray - a partner in the** University of the Highlands and Islands (UHI).

A Focus for Life Sciences

The collaboration between **UHI Moray**, NHS Grampian and Highlands and Islands Enterprise to create the AGB Centre ensures a synergy between education, healthcare and industry, creating a stimulating innovative environment.

Coupled with NHS Grampian medical research and training facilities, the AGB Centre is an ideal event venue for Healthcare and Digital Health sectors.

Excellent venue - flexible space in the Centre which can be configured to meet every event's needs. Good ICT for presentations. Time spent with the Events Team was excellent as they helped me plan every aspect of the event.

Fantastic facility to hold our Wedding Show. The whole planning and preparation stage was made easy with the help from the in house Events Team who let us visit when we needed to check over anything we were unsure of.
