

Join us on Thursday 18 June, 10am–2pm

10-Step Pre-Induction Online Enrolment Programme

Guidance for current applicants and
progressing students on your next steps

The 10-Step Programme

The 10-Step programme launches in June and runs through to August. This structured online experience helps build community, readiness, and digital confidence, while developing vocational, academic, and digital skills and encouraging early engagement.

This in-person event provides students with everything they need to complete their online enrolment for the 10-Step programme, which they will undertake over the summer. Attendance is essential, even for those who have already attended a Keeping Warm Campaign event this year.

There will also be live demonstrations of the 10-Step programme at: 10:15, 11:15, 12:15, and 1:15 in the break-out area.

General

Location & Time

Conference Room
10am - 2pm

Information Sessions & Activities
